6. What does not apply

- 2+ time-zone trip: no
- double-digit dog: no
- off a 10-point loss: no
- off a 20-point win: no
- 2nd straight home game: no
- 2nd straight road game: applies to LAC
- bye next week: no
- off a bye: no
- scored ≤10 last: no
- short week: no
- trip ≥1000 mi: no
- TO ≥3 last: applies to SEA
- undefeated entering: no
- winless entering: no

7. Stack, without double-counting

- **SEA –7.0** — one population: Sunday late window fav –7 to –9.5; off a loss; off a 1-score loss. ATS 4–6 (40.0%, n=10). Not added (n would fall under 10, or the trait does not narrow the population): off an ATS miss, off a loss as favorite, off a road game, next game is home, next game is division, equal rest, opponent off a loss, opponent off an ATS miss....

- **LAC +7.0** — one population: Sunday late window dog +7 to +9.5; off a loss; off a 1-score loss. ATS 8–3–1 (72.7%, n=12). Not added (n would fall under 10, or the trait does not narrow the population): off an ATS miss, off a loss as dog, off a road game, 2nd straight road game, trip 200–1000 mi, 0 time zones, next game is home, next game is division....
