6. What does not apply

- 2+ time-zone trip: no
- double-digit dog: no
- off a 10-point loss: no
- off a 20-point win: no
- 2nd straight home game: no
- 2nd straight road game: applies to LAC
- bye next week: no
- off a bye: no
- scored ≤10 last: no
- short week: no
- trip ≥1000 mi: no
- TO ≥3 last: applies to SEA
- undefeated entering: no
- winless entering: no

7. Stack, without double-counting

Stack floor is n ≥ 20 (tables use n ≥ 10) so the conjunction cannot bottom out on the cutoff.

- **SEA -7.0** — one population: Sunday late window fav -7 to -9.5; off a road game. ATS 8-11-1 (42.1%, n=20). Not added (n would fall under 20, or the trait does not narrow the population): off a loss, off a 1-score loss, off an ATS miss, off a loss as favorite, next game is home, next game is division, equal rest, opponent off a loss....
- **LAC +7.0** — one population: Sunday late window dog +7 to +9.5; off a loss; off an ATS miss; scored ≤ 21 last. ATS 11-8-1 (57.9%, n=20). Not added (n would fall under 20, or the trait does not narrow the population): off a 1-score loss, off a loss as dog, off a road game, 2nd straight road game, trip 200-1000 mi, 0 time zones, next game is home, next game is division....
