2. Lookahead and rest

- JAX: last played week 3 (Sunday early window, home, won by 29). 7 days rest. Week 5: home vs PHI, non-division, Sunday early window.
- CIN: last played week 3 (Sunday early window, road, lost by 3). 7 days rest. Week 5: road vs MIA, non-division, Sunday early window.

3. Sides — CIN –2.5

CIN (home favorite)

Spot anchors (nested — the same games appear in more than one row; identical populations are collapsed below):

Cut	ATS	Pct	n
home favorite	265–294–16	47.4%	575
Sunday early window home favorite	145–150–10	49.2%	305
home fav –1 to –3	85–100–9	45.9%	194
Sunday early window fav –1 to –3	102–106–10	49.0%	218

Conditionals on those anchors, ranked by distance from 50% scaled by n:

Cut	ATS	Pct	n
allowed ≥ 27 last, home favorite	84–123–6	40.6%	213
allowed ≥ 30 last, home fav –1 to –3	17–34–2	33.3%	53
allowed ≥ 27 last, home fav –1 to –3	28–48–3	36.8%	79
lost last despite off EPA $\geq +1$, Sunday early window home favorite	14–28–1	33.3%	43
allowed ≥ 30 last, home favorite	57–82–3	41.0%	142
equal rest, home fav –1 to –3	43–65–5	39.8%	113
off an ATS miss, home favorite	112–144–8	43.8%	264
off a loss, opponent off a win, Sunday early window home favorite	18–32–1	36.0%	51
off an ATS miss, Sunday early window home favorite	53–75–5	41.4%	133
off a 1-score loss, home favorite	61–84–3	42.1%	148
off a loss, home favorite	111–141–6	44.0%	258
allowed ≥ 27 last, Sunday early window home favorite	43–62–3	41.0%	108
off a loss, opponent off a win, home favorite	44–63–2	41.1%	109
off a 1-score loss, home fav –1 to –3	21–34–2	38.2%	57
scored 27–33 last, home fav –1 to –3	18–30–1	37.5%	49
off a loss, home fav –1 to –3	40–57–5	41.2%	102
off a 1-score loss, Sunday early window home favorite	27–41–2	39.7%	70
lost last despite off EPA $\geq +1$, home favorite	37–53–2	41.1%	92

Cut	ATS	Pct	n
allowed ≥ 30 last, Sunday early window home favorite	29–43–2	40.3%	74
opponent off a win by 20+, Sunday early window fav –1 to –3	6–13–1	31.6%	20
off a loss, Sunday early window home favorite	55–73–3	43.0%	131
opponent off a win by 20+, home fav –1 to –3	10–18–1	35.7%	29
off an ATS miss, home fav –1 to –3	38–52–6	42.2%	96
outdoors, home fav –1 to –3	59–76–7	43.7%	142
off a loss, opponent off a win, home fav –1 to –3	19–29–2	39.6%	50
equal rest, home favorite	154–180–10	46.1%	344
next game is road, home favorite	179–206–8	46.5%	393
lost last despite net EPA $\geq +1$, home fav –1 to –3	7–3	70.0%	10

Wide populations (n ≥ 300): equal rest, home favorite, next game is road, home favorite. They describe the spot, they do not select this game.

4. Sides — JAX +2.5

Mirror of the chair above. Same games, other side.

JAX (road dog)

Spot anchors (nested — the same games appear in more than one row; identical populations are collapsed below):

Cut	ATS	Pct	n

6. What does not apply

- 2+ time-zone trip: no
- double-digit dog: no
- off a 10-point loss: no
- off a 20-point win: applies to JAX
- 2nd straight home game: no
- 2nd straight road game: no
- bye next week: no
- off a bye: no
- scored ≤10 last: no
- short week: no
- trip ≥1000 mi: no
- TO ≥3 last: no
- undefeated entering: no
- winless entering: no

7. Stack, without double-counting

Stack floor is $n \geq 20$ (tables use $n \geq 10$). Traits are added by largest parent-minus-child gap (the stack's pct against the pct of the games the trait removes), not by a fixed order. Under each stack: by-season W-L, cover-margin quartiles with signed tails, parent-minus-child (the stack without each trait, and the games that trait removed), the anchor's complement, and the stack split by line bucket.

- **CIN -2.5** — one population: home fav -1 to -3; allowed ≥ 30 last; off a 1-score loss. ATS 5-17 (22.7%, $n=22$). Not added (no gap with $n \geq 20$ left): equal rest, off a loss, off an ATS miss, off a loss as favorite, off a road game, off a division game, scored 27-33 last, allowed ≥ 27 last....
- By season: 15:0-2 16:2-1 17:0-2 18:0-1 19:0-2 20:1-1 21:0-5 22:0-3 25:2-0
- Cover margin: median -7.8, $q25/q75$ -13.2/-1.2; $P(>+7)$ 0.23, $P(<-7)$ 0.50
- Parent minus child: without 'allowed ≥ 30 last': 21-34-2 (38.2%, $n=57$), the games it removed: 16-17-2 (48.5%, $n=35$) | without 'off a 1-score loss': 17-34-2 (33.3%, $n=53$), the games it removed: 12-17-2 (41.4%, $n=31$)
- Anchor alone 85-100-9 (45.9%, $n=194$); anchor minus stack 80-83-9 (49.1%, $n=172$)
- Stack by line bucket: -1 to -3 5-17 (22.7%, $n=22$)
- **JAX +2.5** — one population: road dog +1 to +3; off EPA $\geq +8$ last; TO ≤ 1 last; off a cover; trip 200-1000 mi; off a home game. ATS 16-4 (80.0%, $n=20$). Not added (no gap with $n \geq 20$ left): equal rest, 0 time zones, off a win, off a win by 14+, off a win by 20+, off a win as favorite, scored ≥ 30 last, scored ≥ 35 last....
- By season: 15:1-0 16:1-0 17:2-0 18:3-0 19:2-0 20:1-0 21:2-0 22:1-1 23:1-0 24:0-2 25:2-1
- Cover margin: median +5.2, $q25/q75$ +1.6/+8.6; $P(>+7)$ 0.40, $P(<-7)$ 0.05
- Parent minus child: without 'off EPA $\geq +8$ last': 26-9-3 (74.3%, $n=38$), the games it removed: 10-5-3 (66.7%, $n=18$) | without 'TO ≤ 1 last': 17-4 (81.0%, $n=21$), the games it removed: 1-0 (100.0%, $n=1$) | without 'off a cover': 18-4 (81.8%, $n=22$), the games it removed: 2-0 (100.0%, $n=2$) | without 'trip 200-1000 mi': 20-9 (69.0%, $n=29$), the games it removed: 4-5 (44.4%, $n=9$) | without 'off a home game': 23-9 (71.9%, $n=32$), the games it removed: 7-5 (58.3%, $n=12$)
- Anchor alone 100-85-9 (54.1%, $n=194$); anchor minus stack 84-81-9 (50.9%, $n=174$)
- Stack by line bucket: +1 to +3 16-4 (80.0%, $n=20$)
- **Total 51.5, tightest cut clearing $n = 20$** : line within 3, both off +8 off EPA — O-U 11-26 (29.7%, $n=37$).
- By season (O-U): 16:1-4 17:2-1 18:2-3 19:0-2 20:1-1 21:1-1 22:0-5 23:1-1 24:2-5 25:1-3
- Total margin (points - line): median -4.5, $q25/q75$ -7.5/+6.5; $P(>+7)$ 0.22, $P(<-7)$ 0.30
- By total band: 40-44 2-5 ($n=7$); 45-49 5-13 ($n=18$); ≥ 50 4-8 ($n=12$)
